

John Carlo Salazar

Systems Architect | Lead Web Developer

Trece Martires, PH • johncarlosacrosalazar@gmail.com • 0927-331-5906

10+ years engineering high-performance ecosystems for Singapore and Philippines. Specialist in React, Node.js, and Enterprise QA.

EXPERIENCE

Lead Web Developer | Edge Digital

2020 — 2025

Architected the OnePeople civic ecosystem and delivered mission-critical COVID-19 campaign sites for Singapore. Engineered nationwide APIs and optimized AWS serverless infrastructure for high-traffic scalability.

Tech Stack: React.js, Node.js, AWS Lambda, QA Lead

Web Developer | Breakthrough4business

2017 — 2019

Built the B4B Academy social platform from scratch. Delivered social networking modules and managed EC2 Ubuntu server environments.

Tech Stack: PHP, Laravel, jQuery, AWS EC2

Junior Programmer | Leentech Network Solution

2016 — 2017

Developed custom Magento e-commerce solutions and pioneered mobile-first development using Ionic.

Tech Stack: Magento, PHP, Ionic, jQuery Mobile

CAPABILITIES & TECHNICAL STACK

Frontend: React / Next.js, Tailwind CSS, Framer Motion, TS

Backend: Node.js, Laravel, PHP, AWS Lambda

E-Commerce: WordPress, WooCommerce, Magento

Quality: Manual/Auto QA, CI/CD, Git Ops

Leadership: Experienced in managing delivery teams for high-stakes projects.

Enterprise QA: Two cycles at Temasek Holdings for flagship digital report launches.
