Professional Summary

Strategic Lead Web Developer with **10+ years of experience** engineering high-performance ecosystems for Singapore and the Philippines. Specialist in React, Node.js, and Enterprise Quality Assurance. Proven track record in architecting nationwide APIs and optimizing AWS serverless infrastructure for high-traffic scalability.

Core Competencies

- **Frontend:** React, Next.js, TypeScript, Tailwind CSS, Framer Motion, GSAP
 - **Backend:** Node.js, Laravel, PHP, AWS (Lambda, EC2, S3), REST APIs
 - **Platforms:** WordPress, WooCommerce, Magento, Payload CMS
 - **Quality & Ops:** Manual/Automated QA Lead, CI/CD, GitOps, Serverless Architecture
 - **Leadership:** Team Management, Delivery Oversight, Enterprise Project Lifecycle
-

Professional Experience

Edge Digital | Lead Web Developer | 2020 – 2025

- **Architected the OnePeople civic ecosystem**, a platform for open dialogue and global voting.
- **Delivered mission-critical COVID-19 campaign sites for Singapore** (Oximeter, StayPrepared, BYOBClean) via Temasek Foundation.
- **Engineered nationwide APIs** and optimized AWS Lambda serverless infrastructure to handle massive public traffic.
- **Led Quality Assurance initiatives** for enterprise-level projects, ensuring 99.9% uptime and reliability.

Breakthrough4business | Web Developer | 2017 – 2019

- **Built the B4B Academy social learning platform** from the ground up, implementing custom social networking modules.
- **Managed and optimized EC2 Ubuntu server environments**, improving deployment speed and server stability.
- Integrated various third-party APIs for enhanced platform functionality.

Leentech Network Solution | Junior Programmer | 2016 – 2017

- **Developed custom Magento e-commerce solutions** for international clients.
 - **Pioneered mobile-first development** using the Ionic framework for hybrid application delivery.
 - Collaborated on responsive UI/UX implementations using jQuery Mobile.
-

Key Projects & Highlights

- **Temasek Review (2023 & 2025):** Served as Enterprise QA Lead for flagship digital reports managing a S\$434B net portfolio value.
- **Singapore COVID-19 Initiatives:** Technical lead for multiple Temasek Foundation distribution portals (Masks, Sanitizers, Oximeters).
- **Pentagreen Capital:** Led infrastructure development for a sustainable finance platform focused on Southeast Asian clean energy.

- **Lola's Plates & Pours:** Architected a custom Next.js and Payload CMS website for a premier retail/F&B establishment.
 - **OnePeople Online:** Full-stack architecture for a large-scale civic engagement and referendum platform.
